

Glamorgan Anglers Club - Pysgodlyn Mawr Risk Assessment (Additional Risks)

No	HAZARD	Category	RISK & POTENTIAL CONSEQUENCES	RISK RATING			PRECAUTIONS TO BE TAKEN	RISK RATING			PERSONS RESPONSIBLE
				C	L	R		C	L	R	
1	Invasive non-native species	Environment	Loss of fish stocks due to catfish predation	5	2	10	If you land a catfish it must not be returned to the water but must be humanely dispatched. If you do not wish to undertake this task you should call the head bailiff and he will deal with the catfish.	5	1	5	Anglers & Bailiffs
2	Fish Diseases	Environment	Disease or death of fish and other aquatic species	5	2	10	There is no dip tank at Pysgodlyn Mawr. so ensure your nets and mats are rinsed in tap water when you return home removing all debris and dry in the open air Wash any other equipment that has been in contact with the waterbody in tap water removing all debris and dry in the open air.	5	1	5	Anglers
3	Aggressive dogs and loose horses	Health Safety	Risk of being bitten or trampled/kicked	4	2	8	There are many walkers at this pond with dogs that are often not on a lead, so avoid loose dogs. There is also a possibility of a loose riderless horse so take cover behind a tree if this situation arises.	4	1	4	GAC Members
4	Food/Hot Drink Preparation	Health Safety	Scalding from spillage of hot water. Cutting, slicing, puncturing from use of utensils.	4	2	8	Do not light open fires when fishing. No fires or stoves are permitted at Pysgodlyn Mawr.	4	1	4	Anglers & Bailiffs
5	Casting	Health Safety	Injury including sight loss.	4	2	8	There are numerous walkers around the pond so always ensure that when casting the area behind you is clear. When the opposite swim is occupied do not cast into the opposite swim.	4	1	4	Anglers
6	Nuisance	Environment	Noise complaints from property adjacent to barrier	2	2	4	Turn off car media system when leaving the highway and opening the barrier. Try and minimise noise when opening and closing the barrier.	2	1	2	Anglers & Bailiffs

C = Consequence

L = Likelihood

R = Risk (C x L = R) Post Control Risk factor should be classed as medium risk or lower

TASK CAN CONTINUE

RISK ASSESSMENT REQUIRED TO ENSURE "ALARP"
